Two Months.....	2.50
Three Months.....	3.75

JULIAN HYDE..... H. M. LEWIS.....

The Times-Herald has been shown a letter from District Attorney McCulloch in which he states that he will issue an order to the sheriff of Harney County to close the saloons on Sunday after July 1. He further states that the law will be strictly enforced in regard to gambling selling liquor to minors, selling liquor to habitual drunkards, or to any one while intoxicated. The prosecuting attorney wishes to be understood as to these matters and that the law will be strictly enforced in all cases. He will ask all common council, peace officers and good citizens of the county for assistance.

Ex-President Grover Cleveland died at his home in Princeton, N. J., Wednesday, June 24, from organic disease of the heart and kidneys. He was 71 years old. America loses one of its most notable public men and foremost statesmen.

TO VOTE ON BOND ISSUE

The special school meeting yesterday afternoon was not largely attended and little was accomplished. It was decided to call a special election within 30 days to vote on an issue of bonds to the amount of \$20,000. It was found that the law would not permit the district to bond for more than 5 percent of the value of its property.

An adjourned meeting was called for Tuesday, July 6, to consider reports from carpenters in regard to fixing the old building.

STUDYING BIRD LIFE

W. L. Finley and party, who have been in this section for the past month or more, making a study of our bird life, investigating the habits and classifying them, were up from the lakes the first of this week.

Mr. Finley considers Malheur lake an ideal breeding place for our large number of water fowl and believes they should be better protected. Should this lake be made a reserve and resting place for our water fowl it would in no wise interfere with our shooting, as we have number of other places in the sloughs, ponds and various swamps where we can shoot. The preservation of our birds is absolutely essential and we do not realize how important it is. Mr. Finley expressed it as a shame when speaking of the large colonies of birds that have been practically depleted by the slaughter of plume hunters. He stated that we do not notice this matter so much now, but that as soon as a railroad reached here we would soon have no birds unless some steps were taken for their protection.

Mr. Finley is president of the State Audobon society and would be pleased to recommend that Malheur lake be made a reserve for the breeding place of water fowl provided he could have the support of the people of this section in the move.

Without the support of the people it would be almost useless to ask the president to set this lake aside as a reserve for it would be hard to control. The government is willing to create such reserves but will not furnish men to patrol it therefore the Audobon society must do this. Mr. Finley has stated to friends here that the society could not afford to pay more than one patrolman, although it should have two if it is created.

The Times-Herald is in favor of such reserve and believes that the people will take an interest and assist in preserving our birds.

ERASTUS POWELL SMITH.

"Pop" Smith died Thursday morning at the home of his son, C. G. Smith in this city, aged 81 years, from heart trouble.

He was a man of excellent habits and sturdy constitution and continued to be active in his accustomed pursuits up to a few weeks ago. To this end there is no doubt that his sunshiny disposition largely contributed. He met most of the conditions and situations of life with a joke. He was a practical matter-of-fact man and was not disposed to worry about matters that could be bettered in other ways. This cheerful spirit remained with

him to the last and he retained his clearness of intellect up to his closing days. When he died, full of years, and ready to be gathered to his fathers, the grief that was felt over the close of his long career was widespread and sincere. His best monument will be the good report that he has left behind him in the community in which he has lived so long.

Mr. Smith was born in Manchester, Vermont, Jan. 5, 1828. He came to California in 1849 and followed mining and other pursuits. Was married in 1869 and came to this place 19 years ago where he had been preceded by one son, Phil. His wife died Aug. 15, 1905. He is survived by eight children all of whom are highly respected men and women. C. G. Phil, Seth, Russell, and Neil, all of this place; Harry of North Yakima, Washington, his sons, and Mesdames H. Hotchkiss and Lee Thornburg of this place, his daughters.

Mr. Smith had been a Mason for almost 50 years and the funeral was conducted yesterday afternoon at Burns Lodge, No. 97, A. F. & A. M. of which deceased was an honored member.

A car load of New Moline wagons just in at C. H. Voegty's. These are the best and cheapest wagons in the country. Also the Velle buggies, and Henney hacks. Call and get prices. They are bought for cash, and no middle man's profits are counted in.

Painting and paper hanging A. Horton.

SUNSET NOTES.

Committees are now very busy preparing for the celebration of the Fourth, which will be held at the ball grounds. A few exercises and races will be indulged in during the day. At noon the main feature will be a barbecue, after which there will be a ball game. The evening will be devoted to dancing in the pavilion which is being erected for that purpose. The managers of the grounds have stated that no firecrackers will be allowed on the grounds. This is very pleasant information to many who have become disengaged with the deafening noise.

Mr. Jordan the well known carpenter of Burns accompanied W. R. Dawson home Wednesday. Mrs. R. Barron, Mrs. N. Henry W. R. Dawson, A. McKee, J. and C. Reed, W. G. Hodder and Neva Hodder were among the visitors to Burns this week.

Mrs. M. Nash and son Ned daughter leave for Waco this week to spend the summer.

Bert Porter and family leave Saturday for Pendleton.
